ATTENDANCE VIA SMS

In Case of Power failure, marking of teachers attendance can be done by sending SMS from respective school CUG numbers (please read the instructions below) with in the time schedule given. Subsequently the attendance data should be substantiated with the physical records.

An easy way of registering the attendance for the teaching staff by sending SMS through the mobile phone, where in the user has to follow simple steps in order to send SMS

1) The format for sending the SMS from school CUG numbers,

    Type in the SMS message editor

    Tate <space><roll no><If Absent=A, Leave=L>

    Need not mention present status for teachers who are present. **Send only Teachers who are Absent or on leave .**

2) For example teacher with roll number 12 in SAMS is absent and roll number 13 is on leave then the message should be like

    Tate 12A.13L

    Please note that the above example is for only two teachers with their respective roll numbers, to add more teachers simply put a '**.**' followed by the roll number

    For example Tate 12A.13L.14A.18L

3) **If all the teachers are present then send the message as below .**

    For all staff present   **Tate AP**

4) And send SMS to **+919246356765**

**Please note the teacher roll numbers can be found in SAMS

**SMS from the school mobile numbers will only be accepted by the system,SMS from other mobile numbers(Non CUG) will be rejected by the system.

If still unable to send the SMS then call support team for detailed information.

IMPORTANT INSTRUCTIONS:-

The "**above" instructions are to be strictly followed while sending a SMS**,

PLEASE NOTE : **IF THE SMS SENT IS NOT IN PRESCRIBED FORMAT AS ABOVE THE SMS WILL BE REJECTED BY THE SYSTEM.**

DO NOT SEND AS BELOW

Some of the common mistakes by the users

1) SMS to be in the correct format otherwise the SMS will be rejected, a few examples of the incorrect SMS are,

   Tate 12A,13L (wrong format)   User typed a "," instead of "." So special characters like @#$%^& not allowed.

   Tate 13L.14AA   (wrong format) User typed "AA" instead of "A"

   Tate13L.14A   (wrong format) No space between Tate and 13L

   Tate 13L. 14A (wrong format) Space between "." And 14A

   Tate 13L . 14A (wrong format) space between 13L, ".",14A

   Tate 13L .14A. (wrong format) "." After 14A not required if nomore teachers to add.i.e last teacher attendance should not be ended with "."

   Also the user should type only one letter L(Leave) and not double L(LL) or Double A(AA).

   Also no special characters (except for <dot> i.e., (.)) and space should be provided in between the roll numbers and leave or absent.
